

STATE OF CALIFORNIA  
STATE WATER RESOURCES CONTROL BOARD  
**DIVISION OF WATER RIGHTS**  
**ORDER**

Application 18169 Permit 11585 License 6613

**ORDER TO CORRECT PURPOSE OF USE  
ADDING ENDANGERED OR THREATENED SPECIES TERM  
AND  
AMENDING THE LICENSE**

**WHEREAS:**

1. License 6613 was issued to Charles W. Smith and filed with the County Recorder of Shasta County on December 6, 1962 in Document 16833, Book 727, Page 154.
2. License 6613 was subsequently assigned to Robert Spaid on June 4, 1998.
3. A request was made by the licensee to correct the purpose of use to add fish culture, recreation, and wildlife enhancement. The correction to the purpose of use shall be made pursuant to Title 23, California Code of Regulations, Section 798, Fish and Wildlife Preservation and Enhancement.
4. A correction is required to correct the description of the purpose of use to agree with actual use of water within the licensed place of use.
5. The State Water Resources Control Board (SWRCB) has determined that said correction will not initiate a new right nor operate to the injury of any other lawful user of water and that good and sufficient cause has been shown for said correction.
6. Fish or wildlife species have been or may be listed under the federal Endangered Species Act and/or the California Endangered Species Act.
7. The license condition pertaining to the continuing authority of the SWRCB does not conform to the current law public trust doctrine contained in Title 23, California Code of Regulations, Section 780(a) and therefore should be amended.

**NOW, THEREFORE, IT IS ORDERED:**

1. The purpose of use under this license be corrected to read:

Irrigation, fish culture, recreation, wildlife enhancement
2. The addition of the Endangered Species term for this license to read:

This license does not authorize any act which results in the taking of a threatened or endangered species or any act which is now prohibited, or becomes prohibited in the future, under either the California Endangered Species Act (Fish and Game Code sections 2050 to 2097) or the federal Endangered Species Act (16 U.S.C.A. sections 1531 to 1544). If a "take" will result from any act authorized under this water right, the licensee shall obtain an incidental take permit prior to construction or operation. Licensee shall be responsible for meeting all requirements of the applicable Endangered Species Act for the project authorized under this license.

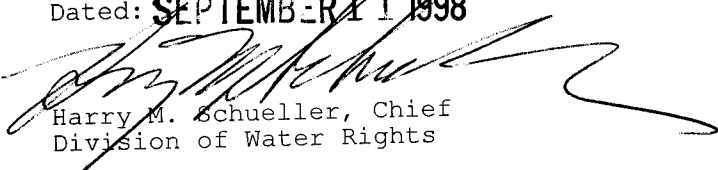

3. The continuing authority provisions of this license be amended to read:

Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest; and is necessary to preserve or restore the uses protected by the public trust. PERMIT 11585

LICENSE 6613

THIS IS TO CERTIFY, That

Charles W. Smith  
P. O. Box 705  
Redding, California

Notice of Assignment (Over)

has made proof as of June 20, 1961,  
(the date of inspection) to the satisfaction of the State Water Rights Board of a right to the use of the water of  
Chicken Spring Gulch in Shasta County

tributary to East Fork Stillwater Creek

for the purpose of irrigation use  
under Permit 11585 of the State Water Rights Board and that said right to the use of said water has been  
perfected in accordance with the laws of California, the Rules and Regulations of the State Water Rights Board and the  
terms of the said permit; that the priority of the right herein confirmed dates from June 4, 1958  
and that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited  
to the amount actually beneficially used for said purposes and shall not exceed one hundred forty-five (145)  
acre-feet per annum to be collected from about November 1 of each year to about  
March 1 of the succeeding year.

Maximum withdrawal within any one season has been about 135 acre-feet.

The point of diversion of such water is located :

South four hundred (400) feet and east one thousand nine hundred (1900) feet  
from NW corner of Section 2, T32N, R4W, MDB&M, being within NE $\frac{1}{4}$  of NW $\frac{1}{4}$  of said  
Section 2.

A description of the lands or the place where such water is put to beneficial use is as follows:

25 acres within NW $\frac{1}{4}$  of NW $\frac{1}{4}$  of Section 2, T32N, R4W, MDB&M.  
31 acres within SW $\frac{1}{4}$  of NW $\frac{1}{4}$  of Section 2, T32N, R4W, MDB&M.  
11 acres within NW $\frac{1}{4}$  of SW $\frac{1}{4}$  of Section 2, T32N, R4W, MDB&M.

67 acres total

All rights and privileges under this license including method of diversion, method of use and quantity of water  
diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the  
interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of  
diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time  
to time by the State Water Rights Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein  
specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
